

Metals has a long history of producing roofing systems of exceptional quality, safety, energy efficiency and performance. Through science, innovation and rigorous engineering, we turn industrial metals into purposeful works of art. Combining cutting-edge custom capabilities with artisan skills, our cross-disciplinary teams provide metal roofing fabrication with a broad range of applications. Skilled craftsmen fuse traditional designs with modern practicalities to create, match or inspire systems that meet each customer's needs – masterfully balancing beauty with functionality and strength.

Overview: Panel Profiles

DMC 175S

This structural snap lock panel system offers broad width seams as well as easy, fast installation while maintaining the strength to meet building codes.

DMC 150SS

Incorporating more than 100 years of proven performance, this standing seam panel features increased strength and durability.

DMC 150SL

This architectural non-structural snap lock panel system is watertight and easy to install – the ideal choice for residential and light commercial applications.

DMC 550S

This snap lock panel system provides a highly water-resistant seam, along with a lower profile for a look that is unobtrusive.

DMC Snap-On Batten

The longtime favorite for the traditional bold look. Wide battens bring the visual appeal of the past together with the ease of modern day details.

DMC 200S

Our most tested commercial standing seam panel system. This panel can be installed over open framing, steel decking and plywood and is ideal for low to steep slope applications.

Panel Options

Flat Panel
